Basis.)	

This matter comes before the Public Service Commission of South Carolina (the Commission) on the Application of E-Z Access USA, Inc. (E-Z Access or the Company) for approval of a request to amend its Certificate of Public Convenience and Necessity to reflect that E-Z Access will be providing service on both a resale and facilities-based basis. E-Z Access USA, Inc. was granted a Certificate to provide local exchange service within the State of South Carolina in Docket No. 2000-564-C, Order No. 2001-245. E-Z Access initially requested authority to provide local service on a resale basis only. A letter from the Company's counsel explained that E-Z Access requested that its Certificate be amended to reflect that E-Z Access will be providing service on both a resale and facilities-based basis.

After full consideration of the applicable law and the Company's explanation of its request, we therefore hold that E-Z Access's request to amend its Certificate of Public Convenience and Necessity to reflect that it will be providing service on both a resale and facilities-based basis is hereby approved as filed.
